Future Village- Financial report for Health Clinic Centre

Health care is a basic human right. No one should have to die of a disease that is treatable.

(Dr. Paul Farmer, the founder of Partner in Health)

Thank you so much for everyone who made the Future Village Health Clinic Centre is possible.

- ✓ Sarah O & Christie **USD 3,800** for supporting land purchase

Activities we are planning to do are given below:-

- To provide primary health services especially for old people like wise high blood pressure, within 15 days in a month and provide free medicine at checking period
- To provide worms medicine for children within 6months
- Organize health workshops particularly focusing on children, women and old people.

Your continuous financial support is very important for maintaining the local services in the long term.

Please support us!
